EXECUTIVE SUMMARY

This document was generated at the following date : 02/23/2023.

This document was generated for the subscription(s) :

- Microsoft Azure(b1edb233-8fa0-43be-926c-a6c1f63780a7)

The following Azure data centers are used in your deployment:

Location	Number of resources
*****	1
northeurope	*****
*****	*****
westeurope	*****

The following components are used in your deployment:

Trend	Category	Component Type	Number
➔	*****	*****	*****
➔	Load Balancing	*****	1
➔	*****	*****	2
➔	*****	Endpoint	***** *****
➔	*****	*****	***** *****
➔	Organizational Unit	Resource Group	*****
➔	Organizational Unit	*****	*****
➔	Storage	Storage account	5

*****, your Azure consumption is split across the following categories:

, your Azure consumption has the following trend:

, the components that are the most expensive are the following:

Filters

The following filters have been applied for the resource types:

Component Types selected

Traffic Manager
Network Watcher
Endpoint
Policy Assignment

The following filters have been applied for resource groups to explicitly include: *****

The following filters have been applied for resource groups to explicitly exclude: *****

The following filters have been applied for resource types to explicitly exclude:

The following tag filter have been applied:

Tag Name: ; Tag Value =

Hints

Here are some tips on how to enhance your document with more information and better views :

Name	Description	More Information
Improve Hard-To-Read Diagrams with layout optimization	When Clouddokit generates Diagrams with many resources, it can be tough to read dependencies when arrows overlap. We have developed algorithms that improve the layout of the diagrams. We recommend that you try those algorithms to see if they improve the quality of the diagrams.	*****

BILLING

The following section contains billing details *****.

COMPLIANCE

COMPLIANCE STANDARDS – SUMMARY

Standard Name	Standard Description	Issues Detected
*****	*****	 5 Issues detected.
*****	*****	***** 5 Issues detected.
