EXECUTIVE SUMMARY

****
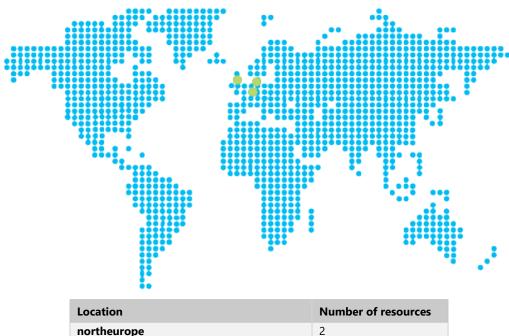

This document was generated at the following date : 02/23/2023**.**

This document was generated for the subscription(s) :

- Microsoft Azure(***********)

The following Azure data centers are used in your deployment:

Location	Number of resources
northeurope	2
***********	1
***********	***********
westeurope	***********

The following components are used in your deployment:

Trend	Category	Component Type	Number
→	***********	Log Analytic Workspace	***********
→	Load Balancing	Traffic Manager	*********** ***********
→	Management Tools	***********	*********** ***********
***********	***********	Endpoint	1 ***********
→	***********	Policy Assignment	3
→	Organizational Unit	Resource Group	8 ***********
→	Organizational Unit	***********	*********** ***********
→	Storage	Storage account	5

, your Azure consumption is split across the following categories:
****

***********, your Azure consumption has the following trend:
****

, the components that are the most expensive are the following:

Price (USD)

Filters

The following filters have been applied for the resource types:

Component Types selected
Log Analytic Workspace
****
Network Watcher
Endpoint
****
****
****
****

The following filters have been applied for resource groups to explicitly include:

The following filters have been applied for resource groups to explicitly exclude: ***********

The following filters have been applied for resource types to explicitly exclude:

The following tag filter have been applied:

Tag Name: ; Tag Value =

Hints

Here are some tips on how to enhance your document with more information and better views :

Name	Description	More Information
Improve Hard-To-Read Diagrams with layout optimization	***********	***********

The following section contains billing details ***********.
